Datering af jernalderens huse

Indtryk fra en debatdag om AMS-dateringer, hustypologi og bebyggelsesudvikling med udgangspunkt i jernalderhuse

Review of a seminar held the 5th December 2019 at the University of Copenhagen, Saxo Institute. Organized by J.M. Ulriksen (Museum Sydøstdanmark) & P.O. Rindel (UCPH, Saxo Institute). The main theme of the seminar was AMS-dating, how AMS-dating are used, and how that affects house typologies and our understanding of Iron Age settlement dynamics. Starting point of discussions was a presentation about the advantages and problems of using Bayesian Modelling.
